

Established in 1986, Altech Environmental Consulting is a specialized engineering and consulting firm that partners with businesses to expertly identify environmental concerns. We then proactively recommend appropriate remediation solutions to help our clients measurably improve compliance, while reducing risks.

COST-EFFECTIVE

- We save our clients money through extensive knowledge and cutting-edge innovations.

EXPERIENCED

- Operating since 1986, our average staff experience of over 15 years offers our clients the depth of knowledge they require.

RESPONSIVE

- We respond to all requests within 24 hours, and strive to mobilize within 48 hours.

SITE INVESTIGATION & REMEDIATION SERVICES

Altech performs a broad range of cost-effective site and subsurface investigations. With geotechnical, geoscientific and professional engineering expertise, we conduct comprehensive contaminant identification, delineation and migration studies, in addition to full remediation and decommissioning projects.

ACCOUNTABLE

- Altech maintains \$2 million in errors and omissions insurance, exceeds industry liability standards, and our active staff have no claims issued in 30 years.

ESTABLISHED

- We have been a trusted consultant and resource for virtually all of Canada's major banks and small/medium lenders for over 20 years.

QUALIFIED

- Altech staff includes 4 P.Eng's, 1 P.Geo. and Qualified Persons (QP) for environmental site assessment in Ontario.
